GARRONG PARK PLAYSPACE Option C: "Adventure"

Similar size play unit to Bulleke-bek, as shown, is too large to replace the existing unit without extensive changes to landscaping. This includes removal of some trees and garden bed now established in play space.

Further changes to install Agility ("monkey") Bar, will see removal of the Climbing Hut with sand play, as well as some nature play such as log steppers and rock edging.

Significant works are required in reconstruction of adjacent concrete path. Relocation of existing park seat is proposed along with additional shade trees in lawn.

Plan Revision 01:
Change play unit text
16 June 2021
