Merri-bek Open Space Strategy

20-year Projects List

DRAFT FOR CONSULTATION

December 2023

Open Space Strategy 20-year Projects List

Purpose of the Projects List:

The Open Space Projects List is a list of open space projects that is drawn directly from the analysis undertaken as part of the Open Space Technical Background report and Merri-bek's existing strategies that will include projects in open space (such as the Integrated Water Management program, Sport and Recreation Strategy, Nature Plan).

The purpose of this list is to provide Council with an understanding of the quantum of projects required to be delivered in open space over a long-term timeframe to assist with long-term planning and financial considerations.

Please note: this is not an exhaustive list and should not be considered an endorsed capital works program. All projects included in this list will be subject to Council's future budget processes and work planning, and will be assessed alongside the needs and priorities of Council's overall portfolio and community expectations. Projects will also be subject to further analysis to ensure their relevance and suitability in Merri-bek and our overall open space network.

Definitions:

- AAA: All Access Abilities
- AC: Activity Centres.
- GMCT: Greater Metropolitan Cemeteries Trust.
- NE: North-east
- NRM: Natural Resource Management
- RB: Retarding Basin
- SUA: Shared user agreement.
- SUP: Shared user path
- WSUD: Water Sensitive Urban Design

Timeframes:

The timeframes for projects are:

- H: to commence in 0 – 5 years.
- M: To commence within 6 – 15 years.
- L: To commence within 16 – 20 years.

Costs:

The project costs are cost estimates (only). The costs are based on delivery of similar comparable projects in the last 10 years in Council. The costs have been qualitatively assessed to account for real-life 2023 costs. Projects will be subject to detailed feasibility should the process proceed during future cost planning processes. Project costs will also be higher in future years due to cost escalation.

Costs are broken down as:

- \$: \$0 - \$150,000
- \$\$: \$150,000 - \$500,000
- \$\$\$: \$500,000 - \$1,000,000
- \$\$\$\$: \$1,000,000 +

Sizes of open space:

The sizes of pocket, neighbourhood, local, district and regional relate to the Open Space hierarchy within the draft Open Space Strategy.

Project directions:

The directions refer to the five directions with the Open Space Strategy, being:

- Direction 1: Providing parks close to home
- Direction 2: Having a mix of open spaces and open space experiences
- Direction 3: Ensuring our open space network is adaptive, biodiverse, cooling, healthy and resilient.
- Direction 4: Open space for everyone
- Direction 5: Improving access to and through our open space network through better links, corridors and collaboration.
